

RMK-2x10/19

Double the power in a single rack space!

The RMK-2x10/19 accessory lets you mount two **CSS318-16G-2S+IN** switches side-by-side in a single 1U slot of a standard 19-inch rack. Clean, compact, and efficient – it's the ideal way to keep your setup neat without wasting valuable rack space. One click is all it takes!

Want a rack to match?

Check out our **SolidRack 10** – built by MikroTik engineers for our own setups. Simple, sturdy, and designed to make professional installations easier than ever.
